

The Incredible Journey

The Incredible Journey – *an adventure of contrasts!* For the traveller searching for an unforgettable experience with a personal touch.

Travellers looking for something different are in for a real treat, as they venture into the heartland of South Africa. This journey offers a variety of unique experiences, from the mode of travel (air, water, large mammal, land vehicle, foot) to the terrain and environments that surround each property. The common denominator is the very personal touch that each property brings to the journey and guests will take that away with them as an intangible memory that will always stand out in their scrap books.
